Where do you find a high quality commercial grade firewood log splitter built just for you?

Wolfe Ridge Manufacturing does just that, quite possibly the only manufacturing company in the USA that will custom build each machine to your order. We take pride in our work and love to be able to serve our customers with the best Made in the USA log splitters available!

We build large, heavy duty machines customized with the options that you need for your firewood processing operation. We go the extra mile to know that your new log splitter will look great and have a long trouble free life. We utilize high quality components like Honda GX series engines, Prince hydraulics, Eclipse Powder Coating, high strength U.S. Steel to ensure that your new machine will last for decades.

Check out our line-up of solutions to your firewood processing needs. Whether you are a large scale commercial producer that needs to produce 2 full cord per hour or a home owner that would like to spend more time enjoying life, our fire-wood splitters can help!

We do have discounts for our Military Veterans as a thank you for serving our great country! Be sure to ask for this when ordering!

Wolfe Ridge MFG Customer Reviews

Brett Zacho

August 2023

I researched wood splitters for 2 years and narrowed it down to the Wolfe Ridge Pro Series and a Canadian manufacturer as they seemed like the two best producers in the market. I chose Wolfe Ridge not only because they are made in the USA but the splitters are more maneuverable and the wedges are so easy to change. I have had my Wolfe Ridge Pro 28C for 3 months and have split over 14 full cords of wood on it - all in my spare time. I was worried that the 28C wouldn't have enough power but it has split everything I've thrown at it - red oak, white oak, cherry and ash. I love the hydraulic lift, changeable wedges and the electric start.

I truly believe I made the best decision. Yes, it was a lot of money but I feel the value is there and it is worth every penny paid.

Chris and his team are very responsive and create exceptional products!

Tony Wohlgemuth

July 2023

We are spoiled rotten now, splitting wood in 90 + degree weather inside a cold skid steer. Absolutely love our new splitter. Highly recommend you spoil yourself too.

Robert Allen

July 2022

Picked up my new Wolfe Ridge 35C on 07-30-2022. This unit does not disappoint, superb quality. Splitter out performs any other unit I have owned in the past twenty years. Customer Service is OUTSTANDING, Chris is always available to answer any questions.

Claude Sheldon

January 2022

Just received my compact commercial with magnum package. This splitter is engineered to perfection! It produces split wood with ease. Highly recommended. Great job Chris and crew!
